

Shamanic Chinese Medicine Practitioner Training

Information & Registration

Medical Qigong Training is an energetic skill development and personal healing for both health care professionals and lay persons, optionally leading to certification as a Medical Qigong Practitioner, Therapist and Master. Certification is given by Empty Mountain Institute.

Medical Qigong is an ancient form of Chinese Energetic Medicine, dating back at least 5000 years. It is one of the four branches of Traditional Chinese Medicine. Therapists learn to master the secret knowledge passed down from Wu Yi, a Qigong shamanic healer of ancient times. Please read more at johnweiss.ca and www.emptymountain.com

- Take the right lane exit into Stanley Park.

Self-Study: The biggest commitment would be to a minimum of one hour per day for exercise and meditation practice. The reading and tests are on top of that, but the homework/exam shouldn't take more than 6 hours, and the reading should be maybe 10 hours. There are usually at least 8 weeks between classes, so approx. 2 hours study per week. You will be given a chart for you to keep track of this, but you don't have turn it in. It is to help you see how much time you're spending on practice and to encourage you to manage your time in a way that will be most beneficial for you.

Reading List: You are not required to read the material in the entire reading list before the class, but it is recommended. Some people read it while preparing for their take home "exams" after the course. You will require all 5 books for the Practitioner course. The syllabus shows how the reading covers all the books. They are a great reference to have for energy work.

Exams: There are 3 take home exams, which assist you in reading the books and contemplating your experience of energy work. The 4th exam is written in class. It is not stressful or complex and supports your understanding of the essentials.

Practicum: In order to complete the program with Dr. Jerry Johnson, we must complete 48 hours of practicum. The practicum does not need to be completed before you take the Therapist program. The Practicum can include:

No more than 12 hours of classes/workshops demonstrating the Medical Qigong workout

No more than 12 hours on sessions with animals

No more than 12 hours of long distance sessions

Majority of the sessions should be one-to-one with the person with you on a massage table.

Also, we need to have at least 6 write ups of which one should be a case study of multiple sessions.

All Levels Clinic is for all levels of students to work together on outside clients in the morning and exchanges later in the afternoon after group discussions.

Certificates – You will receive a free certificate from Empty Mountain upon completing your Practitioner's training.
